

Skynet Healthcare Technologies Makes Inc. 5000 List of America's Fastest-Growing Private Companies

PALM HARBOR, FL August 15, 2018 – *Inc.* magazine today revealed that Skynet Healthcare Technologies, Inc. is No. 1664 on its 37th annual Inc. 5000, the most prestigious ranking of the nation's fastest-growing private companies. The list represents a unique look at the most successful companies within the American economy's most dynamic segment—its independent small businesses. Microsoft, Dell, Timberland, LinkedIn, Yelp, Zillow, and many other well-known names gained their first national exposure as honorees on the Inc. 5000.

"We are very excited to be named one of America's fastest growing innovators by *Inc.* magazine," says Skynet CEO Martin Rokicki. "Our growth is a testament to the hard work of our employees and validates the rapid adaptation of our product and platform in the technology void of the senior living market space. The advancements of our emergency call and life safety systems will soon be finding application in other markets with emergency needs, such as hospitality and education. Our growth has only just begun, and we are grateful for this honored recognition."

Not only have the companies on the 2018 Inc. been very competitive within their markets, but the list as a whole shows staggering growth compared with prior lists. The 2018 Inc. 5000 achieved an astounding three-year average growth of 538.2 percent, and a median rate of 171.8 percent. The Inc. 5000's aggregate revenue was \$206.1 billion in 2017, accounting for 664,095 jobs over the past three years.

"If your company is on the Inc. 5000, it's unparalleled recognition of your years of hard work and sacrifice," says *Inc.* editor in chief James Ledbetter. "The lines of business may come and go or come and stay. What doesn't change is the way entrepreneurs create and accelerate the forces that shape our lives."
